The screenshot displays the OnlineGDB web interface. On the left is a blue sidebar with navigation links: 'IDE', 'My Projects', 'Classroom' (marked 'new'), 'Learn Programming', 'Programming Questions', 'Sign Up', and 'Login'. Below these are social media icons for Facebook, Twitter, and a '+ 11.5K' button. Further down is a 'GITCOIN VIRTUAL HACKATHON' banner with text about earning crypto and prizes. At the bottom of the sidebar are links for 'About', 'FAQ', 'Blog', 'Terms of Use', 'Contact Us', 'GDB Tutorial', 'Credits', 'Privacy', and a copyright notice '© 2016 - 2020 GDB Online'.

The main area features a top toolbar with buttons for 'Run', 'Debug', 'Stop', 'Share', 'Save', and 'Beautify'. Below the toolbar is a code editor with a file named 'main.py' containing the following Python code:

```
1 s = str(input("Enter the string\n"))
2 n = int(input("Enter the position of element to be deleted\n"))
3 m = len(str(s))
4 s1 = ""
5 for i in range(m):
6     if(i!=n-1):
7         s1 = s1 + s[i]
8 print(s1)
```

Below the code editor is an 'Input' section with a text area containing the input 'anu' and a '2' in the second line. The output area is currently empty. The bottom of the browser window shows a Windows taskbar with the search bar and various application icons. The system clock in the bottom right corner shows '20:00' and '30-05-2020'.
